

Diesel Generator Set QSB6.7 Series

180-225 kVA, 144-180 kWe Prime

Latest Technology Product with Global Cummins® Platform

- (CThe Cummins® QSB6.7 series heavy-duty engine and world class Stamford alternator powered diesel generator set
- Class defining Quantum engine technology with fully integrated subsystems
- **(C**Full Authority Electronic Engine
- (CAdvanced in-cylinder technology to meet latest emission norms without any after-treatment device
- (CSmart aesthetic and superior finish
 (Compact in size with optimum power to weight ratio)

Environment Friendly Power

- Class defining technology engine is designed to meet stringent exhaust emission tests as per revised MoEF norms, thus offering environment friendly power
- **(C**ummins[®] diesel generator sets are available with the lowest noise levels in its range

Lowest Operating Cost and Comprehensive Warranty

- (CHighly reliable and durable product
- (CAll elements are designed to work together to maximize efficiency even at part loads, offering the advantage of lowest operating costs.
- ((500 Hours/ 1 year service interval
- (Industry acknowledged best-in-class comprehensive warranty on the entire package including rubber components

Single Source Power Assurance

- ((All the major components the engine, alternator, control system and canopy are designed, manufactured and tested by Cummins India.
- **(C**Best and largest customer support network in India, capable of providing round-the-clock service and spares support
- (CAll these things put together, Cummins® offers you SINGLE SOURCE POWER ASSURANCE

Engine

- Cummins[®] QSB6.7 series, 6 cylinder, in-line 4 stroke, radiator cooled engine
- **(**Full Authority Electronic Engine
- **((**Well designed air handling system with
 - Dry type, Replaceable paper element air cleaner with restriction indicator
 - Air to air aftercooler
 - Optimised turbocharger for increased altitude capabilities
- **(C**Best in class fuel economy with
 - Bosch HPCR fuel system with A1 class electronic governing
 - Dual fuel filter system: Pre filter including water
- separator and Water In Fuel (WIF) sensor and main filter (Cstandard integral set-mounted radiator system, designed and tested for 50°C ambient temperature
- ((Full flow spin on lube oil filter
- CPlate type lube oil cooler
- Contrate type tube of cooler
- CFirst fill of lube oil and coolant
- (CElectrical starter motor with soft start engagement feature CBattery charging alternator
- **((2** x 12 V DC batteries

Alternator

- CStamford UC27 alternator frames from Cummins Generator Technologies
- (CBrushless type, Screen protected, Revolving field, Self excited alternator conforming to IS/IEC 60034-1
- **((**3 Phase reconnectable winding with 12 terminals brought out for connection
- **(**CBetter motor starting capability
- **(**Best in class efficiency
- Compact design with sealed bearings for longer life and lesser maintenance
- (CImpregnation on all wound components for better mechanical strength

Control Panel

Control panel is manufactured with 14/16 gauge CRCA sheet and is powder coated for weather-proof and long lasting finish. The control panel consists of the following parts:

- **((**PowerCommand[®] 1.1 Controller
- (CAluminum bus bars with suitable capacity with incoming/ outgoing terminals
- (Cindicating lamps for 'Load ON' and 'Set Running'
- **(**Instrument fuses duly wired and ferruled
- **(**MCCB of suitable rating with overload and short circuit protections

PowerCommand[®] 1.1 features

The PowerCommand[®] control system is a microprocessorbased generator set monitoring, metering and control system with LCD display designed to meet the demands of today's engine driven generator sets

- (Intuitive operator interface which includes LED backlit LCD display with tactile feel soft-switches & generator set status LED lamps
- **(C**Digital AVR for shunt or PMG excitation with torque matching.
- **(**(Digital electronic governing with temperature compensation and smart starting.
- **((SAE** J1939 interface to Full Authority Electronic (FAE) engines.
- ((Remote start-stop)
- (CEngine metering: Oil pressure, Coolant temperature, Battery voltage, Engine speed
- (CAC Alternator metering: L-L Voltage and L-N Voltage, Current (1 and 3 phase), Volt-Amperes (phase and total) and
- Frequency. (CEngine protection: Low lube oil pressure, High/Low coolant
- temperature, Over speed, Battery Over/Under/Weak Volts, Fail to crank/start, Sensor failure.
- (CAC Alternator protection: Over/Under voltage, Over/Under frequency, Over current, Short circuit and Loss of AC sensing.
- (CData logging: Engine hours, Control hours, Engine starts and upto 10 recent fault codes
- Configurable glow plug control
- Configurable cycle cranking
- **((**12 and 24 Volt DC operation
- **((**Sleep mode
- (CProgrammable I/Os (4 inputs and 2 outputs), expandable with AUX101/102 modules
- (Modbus interface (RS485 RTU)
- (In Power compatible (PC based service tool)

Silencer

(CHospital grade silencer suitably optimized to meet stringent noise emission standards laid down by MoEF / CPCB

Mounting Arrangement

- (CEngine and alternator are mounted on a common MS fabricated base frame with AVM pads.
- **((Base frame with integral fuel tank is provided with drain plug, air vent, inlet and outlet connection, level indicator and provision for cleaning**

Optional

- **((Engine:** Coolant heater
- **(**Control Panel:
 - PC3.3
 - Air to air aftercooler
 - Bar-graph For PC3.3 Panel with kW, Power factor, Frequency, Current, Voltage
 - Remote HMI.
- **((Alternator:** PMG

Acoustic Enclosure

- **((**Specially designed to meet stringent MoEF/ CPCB norms of 75 dBA @ 1mtr at 75% load under free field conditions
- (CThe acoustic enclosure is made of CRCA sheets in munsel green shade and a structural/ sheet metal base frame painted in black
- (CHigh quality noise absorbant and fire-retardant grade acoustic insulation material (PU Foam) complying to IS 8183
 (CTwo point lifting for easy handling at customer site
- CDesigned to have optimum serviceability
- ((Air inlet louvers specially designed to operate at rated load
- **((**Made on special purpose CNC machines for consistency in quality and workmanship
- **((11** tank pretreatment process and UV resistant powder coating of all parts to withstand extreme environment
- CUse of special hardware for longer life
- CFlush styling no projections
- CFluid drains for lube oil and fuel
- **(**(Fuel filling arrangement inside the enclosure

Technical Data

Generator Set Specification			
Model	C180D5P	C200D5P	C225D5P
Duty	Prime	Prime	Prime
Power Rating kVA / kWe	180/144	200/160	225/180
